PROFILE

I am a passionate and dedicated web developer. My expertise lies in technologies such as HTML, CSS, Java, etc., and I am constantly exploring new technologies and frameworks to stay updated with the latest trends in web development. My expertise lies in crafting responsive and visually appealing websites and web applications using HTML5, CSS3, and JavaScript. I am proficient in building efficient data base using SQL.

INTERNSHIP

Social Media Manager

Sellopedia   May 2023 - Nov2023

- Manage all Social Media Platform.

PROJECTS

E-Commerce Website | Personal Project Feb 01 - Feb 15

Link - **https://ecommerce9938.netlify.app**

It is a non-responsive e-commerce website using HTML5 and CSS3 as a first project, showcasing foundational skills in web development. Created a demo platform to demonstrate understanding of frontend technologies and layout design principles.

Portfolio | Mar 10- Mar 15

Link - https://shrutidas02.github.io/CSS/Portfolio/portfolio.html

Created a visually appealing non-responsive portfolio website using HTML and CSS, showcasing projects, skills, and personal achievements in a structured and engaging layout.

Leave Managment | Mar 25

Designed and implemented a comprehensive Leave Management System using SQL to manage and track employee leave requests within an organization.

Super Market | June 8- June 17

Developed a comprehensive Super Market management system using Core Java, focusing on encapsulation principles. Designed and implemented modules for inventory management, sales processing, and customer management.
